AN ISO 9001:2015 CERTIFIED COMPANY

PRODUCT

CATALOGUE

Ridhi Electrotek, is a young and an energetic company in our minds and hearts. We execute with a clear set of defined goals that have been derived from a strategic focus for growth. We have a mission to be a leading service provider for electronic, Telecom, automobile, Electrical and Pharmaceutical industry. We engaged in a leading distribution for PCB Assembly consumables, support equipments and repair in Indian sub-continent. The founder, Mr. Manish Sharma was formed Ridhi Electrotek in the year 2011 with a vision of trusted to deliver excellence to our clients from Electronics Manufacturing Industry by building stronger, agile and innovative products and services from all over the world. Manish Sharma is an Electronic Engineer and having more than 22 years of experience in electronic industry especially in PCB Assembly consumables become us one of the preeminent distribution organization in very few years of its operation. We use branded manufacture's machine & tools and trusted vendors who manufacture products using the best raw material combined with latest tools.

Being a customer-centric organization and utilizing excellent marketing strategies we are one of the best traders and service providers for PCB Assembly consumables, support equipments, repair and other processing solutions. Some factors that have led to our success are excellent vendor choice, ethical business practices, customized solutions, timely delivery, Superior quality of products, bulk delivery options. As we believe in supporting only high quality products with a right price tag to help us grow our customer's belief. Over the years we have developed and maintain a large stock inventory to meet our customer's requirements in appropriate time frame. Ensure Maximum Customer Satisfaction to Esteemed Customers by offering State of the Art Products & Services consistently in line with their requirement and affordability.
